- <https://heincm.github.io/whats-happenin/>

Storefront

- A CLI storefront application for customers, as well as supervisors and managers that can be used to purchase, restock, and add inventory to a MySQL database
- Node JS, Chalk, CLI-Table, MySQL
- <https://drive.google.com/file/d/1QBB4oLxEPZ4cPszPmb46h198Dy9-CY33/view>

Friendfinder

- A simple friend-matching site based on user interests in dogs
- Node JS, Express, jQuery, Bootstrap
- <https://shielded-coast-44459.herokuapp.com/>

Avenger Clicky Game

- A comic book related memory clicky game
- React, Bootstrap, Github Pages
- <https://heincm.github.io/react-game/>

RELEVANT EXPERIENCE

Georgia State University, Atlanta, GA

Academic Counselor, July 2014 - Present

- Write scripts for Oracle PL/SQL reports to provide for end of term data used to evaluate the effectiveness of departmental initiatives.
- Develop an online survey with Qualtrics software to replace a paper process and automated the process of emailing completed survey reports to the appropriate parties which drastically cut down on the time needed to process student requests for course changes.
- Supervise a team of eleven staff members who increased the number of recorded meetings by 30% from fall 2017 to fall 2018.

Selected Contributions

- Generated SQL reports that showed an average grade point average increase of 0.7 points for students utilizing coaching services at Georgia State University.
- Created SQL reports that significantly reduced the amount of time needed by staff members to appropriately evaluate course registration of new students.
- Developed a streamlined online survey for student seeking academic coaching which replaced paper processes and automated the dispersal of information to appropriate parties through automated emails.

University of Wisconsin-Platteville, Platteville, WI

Resident Director, 2014 - July 2011 - July 2014

- Migrated departmental website to Drupal for a pilot project to be used as a model example for content layout and design for other departmental websites at the university.
- Updated website content on a monthly basis and provided emergency informational updates on the website as needed.
- Utilized professional photographers and organized photo shoots in all department-owned buildings to take updated photos to be showcase don the departmental website.
- Created and maintained social media accounts for the department across multiple social media platforms to increase awareness of services provided and further engage with students.

Selected Contributions:

- Recognized by the University of Wisconsin-Platteville IT department for the improvements made to the existing departmental website.
- Selected to serve as a mentor for new professional staff members through training and the first year of employment
